PEOPLE ARE TALKING ABOUT WATER-JEL

CONSUMERS ARE TALKING, TOO

Nate McCullough
Lawrenceville, GA

To whom it may concern:

“ I don’t want to request any information, I simply wanted to pass on a testimonial. I recently found myself suffering from a severe sunburn – what some people call sun poisoning – with deep burns that blistered on the tops of my legs. ”

“ For several days I treated it with aloe and lotion to little avail. About four days after the initial burn, with my legs hurting so badly I could barely walk, I bought some Burn Jel. I applied some as soon as I got home and again before I went to bed. When I woke up the next day I could not believe how much the wound had healed and how much the pain had subsided. The blisters had shrunk, the color of my skin was much better, and the size of the area with the most severe burn was greatly reduced. It was the first time in four days that the pain in my legs was tolerable, and to tell the truth, the pain was barely noticeable. I am still treating it with Burn Jel, and don’t plan to use anything else. ”

“ This ordeal taught me two things: 1) never get caught without sunscreen again, and 2) if for some reason I do, I’ll make sure to have some Burn Jel on hand. ”

“ Again, I don’t want any information or e-mails, I just wanted to tell your company that your product really works, a rarity today, especially with medical products bought over the counter. Thanks again for the relief. ”

Edward Krupsky

San Mateo, CA

“ What a wonderful product! My mom burned her entire palm and we expected BIG pain and weeks without dinner! To our surprise, after using Water-Jel a few times, all the redness and pain disappeared in a couple of days. It was like the burn never happened. Your Water-Jel has also helped me numerous times with smaller problems. ”

Mary Joe, Terry, Rachel, Rebekah & Austin Elrod

Louisville, Kentucky

“ I have used Water-Jel to soothe burns on all three of my children. We've had curling iron burns, hot roller burns, cooking burns and candle wax burns. Recently my husband was cooking on the grill and burned his hand on a metal skewer. He was complaining about how much it hurt. Within a few minutes of applying Water-Jel, he told me it felt much better. ”

“ I just wanted to let you know what a great product Water-Jel is. It has dried many tears of my children. Thank you for making such a super, effective product. ”

Mike Simays

Philadelphia, PA

“ Last night as my wife was preparing dinner, a piece of cellophane wrap touched one of the stove burners and melted. She quickly scraped it off with a butter knife and, in the process of removing it, got a piece stuck to her hand. Although it was obviously painful, she simply ran her finger under water and declined my offers to apply Water-Jel. After a few minutes of suffering with the pain, she agreed to try it and couldn't believe the immediate impact it had. It instantly stopped the pain. ”

“ She's absolutely SOLD on Water-Jel. I'm convinced she'll tell her friends about it and was talking to me about giving it as gifts to people. The benefits of Water-Jel “hit home” last night. Thanks! ”

Michael T. O' Brien,
Windham, Maine

“ A short while ago I received a serious burn working aboard a ship. I got a steam burn as I was working on a large boiler in the engine room. I was wrapped in Water-Jel blankets and rushed to the local hospital. The blankets did everything your product promised it would - cooled my skin and helped prevent infection. I believe your product prevented me from going into shock. I want this for an in-home first/burn aid kit. ”

Hank McNally President and Owner,
Outdoor Adventures, Florissant, MO

“ Just wanted to let you know this is one of the best products I have had to use. I was burned by steam and antifreeze from a defective radiator. Normally, I would expect some very good burns and tissue damage. Due to my use of Water-Jel, I got away with no scars and very little burning. I will be keeping several packs in my tool kits, tackle boxes, hunting vest, camp mess, bike bags and my clients' gift boxes. ”

Kathleen O'Neill
Sherwood, Oregon

“ Just wanted to drop you a line to say thank you for creating such a fantastic product. I was cooking dinner last night and had a good-sized dose of hot oil splatter my forearm and hand. The pain was getting quite intense within about 10 minutes. After applying “Cool Jel” the pain immediately decreased by approximately 60%. I was able to sleep through the night and this morning, and even though the burn covers a decent sized area of my skin, there's very little pain. Much less than I expected, due directly to Cool Jel. ”

“ We're buying more today to have it on-hand. I like it so much, I want to give it out as Christmas presents! Thank you so much! ”

Dawn Gantz,
Poulsbo, Washington

“ Recently I bought your product Burn Jel Plus. I had tried everthing to take a burn out of a sunburn. From Aloe-Vera to Solarcane to Vinegar, and everthing in between, nothing worked till now. I ended up with 2nd degree burns on my forehead. After I used your product, I was better in a matter of (2) days, not a week or two. “

‘ I have and will continue to pass this info along to all I see burned ! It is nice to actually see a product that does exactly what it says ! Thank you for making this product, I will continue to use it for the rest of my life. “

Charles R. Flores,
Albuquerque, New Mexico

“ I would like to let you know that your product MUSCLE JEL is the best thing that I ever used. It helped my pain go away fast. I have tried other pain relief products and they did not help at all. MUSCLE JEL is one product that I will always use. I recommend this product to any one that has MUSCLE PAIN. It works great for me. I will always use it !”

“ Thanks WATERJEL for the best Muscle Jel Product ! ”

Susan Fulton,
Belton, Texas

“ Thank you ! “

“ I burned my fingers today, it was very painful so I went into my local walmart and asked the pharmacist what he would suggest because the product I had used did nothing.”

“I would try Burn Jel Plus. It works for me”, he said. “So I tried it, and thank you, I am pain free ! What a great product. I will tell all about this stuff ! ”

Lois Cross,
Hollywood, Florida

“ I am not in the habit of writing to manufacturers, but I had to in this case. The other night I had used an alcohol based substance on my hands and went to light a cigarette before it was completely dry... and whoa, both hands were in flames. I foolishly tried to ‘shake off’ the excess of the substance, which of course didn’t work and I felt like I couldn’t wipe it on my shirt because it might ignite it. Fortunately I had a glass of ice tea nearby and jammed my hands in that. My friend took me to the sink and ran cool water over my hands but that gave absolutely no relief at all. My hands burned and stung and hurt so bad, even a double dose of pain medication of a narcotic didn’t help. We sent a friend to the local CVS for “something’ to help my poor hands and your BURNJEL PLUS was what was bought. ”

“ I can’t begin to tell you the instant relief I felt. My hands felt no pain whatsoever each time I applied your product. We all have heard of the famous pain scale when you go to the doctor... ‘Please rate your pain on a scale form 1 to 10 with 10 being the worse’. I went from a pain level (9) to about a (1) in a matter of seconds. I am not exaggerating. In fact I was so pleased after using it I made sure our first aid kits at the homeless shelter I work at will us this product for the kitchen where we cook 1000 hot meals a day for the area homeless. ”

“ I can see why many EMT’s use the first aid BURNJEL PLUS, I did feel pretty good. I truly believe that the use of your product kept my hands from blistering completely... I was left with only 2 small blisters and soreness in the web area of my fingers. ”

“ This a fantastic product. I have already shared the incident with all my friends and family and they all agree that I was very lucky that your product was picked off the shelf. It is on my shelf now and my friends’ shelves and at my workplace. ”

“All I can say is thank you. ”

Rhonda L Keel,
Bristol, Connecticut

Dear Sirs,

“ Recently I had a bad run in with my gas grill, the idiot I am, instead of reaching underneath to shut off the gas valve I reached in between the side table and the grill – my arm was burnt on the side of the grill. I was in the worse pain of my life ! “

“ The burn is approximately 5” x 2” inches on the sensitive part of my arm. I used ice packs and the pain was still worse than ever. I ran to my local CVS and saw your product. I used it as the directions intended. I swear this product is miraculous ... immediately the pain and heat vanished, it never returned. The next day I expected to see the worst burn – it did blister and ooze, but still no pain, and because of this I am able to properly care for the burn preventing infection.”

“ I ran out and bought a box of BURN JEL for my parents medicine cabinet, and put some in our first aid kit .”

“ Thank you for this incredible product !!!!
